Dear Member/Prospective Member,

On behalf of Las Vegas High-Rise Condominium Association (LVHCA), I want to take this opportunity to introduce myself and to thank you for your past assistance and support.

As the newly elected president of the Association, I have been given the task of rejuvenating, if not reviving, the mission of the LVHCA, which has been to assist and educate the public, the real estate industry and the development community through an open and honest exchange of non-proprietary information and ideas. This task needs the experience, knowledge and the expertise which we, individually and collectively, have as the members of the Las Vegas real estate community. LVHCA has been devised to create a synergy amongst members to benefit from sharing the expertise and experience of its community, in order to serve as a cohesive authority in the Las Vegas market.

The events of the past two years have brought tough times and our community has suffered. But, the Las Vegas real estate community has always embraced the entrepreneurial spirit and has transformed possibilities into realities.

To help achieve our mission and to assure benefits to our members, we have revised our membership fees to be an attractive source for our members during a slow economy. In addition, we have developed an exceptional slate of high-caliber speakers to serve as featured guest at our membership Breakfast Meetings. These events will be occurring six times a year with added Mixers and possibly one annual BASH. You will be notified of the events.

LVHCA remains grateful to the Founders, the Developers and the Executive Members whose help and generosity has sustained us in the past five years and we earnestly request their continued help and support for the future.

The revised membership fees are attached. Please renew your membership or join the Association, if you have not had the opportunity, by returning the Membership Application.

On behalf of the Board of Directors I thank you and please remember we can not achieve our goal without your membership support and help. Your comments are welcome.

Respectfully,

Stanley Monsef, Ph. D., PE., SCM
